What Premium means per industry

Industry	Modules: Standard / Premium	What Premium adds for this industry
Grocery	7 / 9	Reports, Barcodes, 6 staff, export, priority support
Pharmacy	9 / 9	Online pay links for dues, 6 staff, export, priority support (no Reports/Barcodes module)
Mobile Shop	10 / 12	Reports, Barcodes, online pay links, 6 staff, export, priority support
Clothing	7 / 8	Barcodes, 6 staff, export, priority support (no Reports module)
Pet Shop	8 / 10	Reports, Barcodes, 6 staff, export, priority support
Academy	10 / 10	Online pay links for Fee Dues, 6 staff, export, priority support (no Reports/Barcodes)
Software	9 / 9	6 staff, export, priority support only (no Reports, Barcodes or Credit module)
Restaurant	3 / 4	Reports, 6 staff, export, priority support
Other	8 / 9	Reports, online pay links, 6 staff, export, priority support

Online pay links attach to the Credit / Fee Dues module, so they only apply to industries that have it (Pharmacy, Mobile Shop, Academy, Other). Software Development gets no module-based upgrade from Premium today, so its Premium value is staff logins, export and support. Adding an industry-specific Premium feature there (for example milestone invoicing) would fix this.
